

WisdomForce Announces Availability of DatabaseSync Version 2.5 to enhance real-time Change Data Capture and high-transactional volumes feed to Data Warehouse

WisdomForce Database Sync System 2.5 enables users to efficiently capture the most recent transactional changes in real-time for data feeds into large Data Warehouses and for reporting. Database Sync 2.5 improves high-performance real-time transactional change data capture, DIRECT log-based database replication and data warehouse feeds from very large databases.

Seattle, WA – January 01, 2010 - WisdomForce™ Technologies, Inc., a leading provider of high-performance data movement and real-time integration solutions, today announced general availability of WisdomForce Database Sync 2.5, taking heterogeneous Change Data Capture and Data Warehouse feeds to a new level.

New main features include:

- Introduced Merge & Apply capabilities suitable for large data warehouses with high transactional volumes coming from OLTP systems.
- Significant enhancements to metadata management.
- Enhanced Oracle ASM support
- Enhanced integration with WisdomForce FastReader for initial synchronization
- Significant enhancements of DatabaseSync Manager (GUI).

About WisdomForce

WisdomForce solutions make enterprise data universally and securely up to date accessible and useful. WisdomForce Technologies delivers software products that help CIOs of data-intensive businesses and governmental entities to improve the quality, availability and continuity of the data within their IT systems, leading to better business decision-making, increased productivity, and an improved bottom line. WisdomForce high-performance products are focused on the real-time database data movement and data integration market.

WisdomForce is providing customers with software for real time data integration, replication, extract, change data capture, transformation, movement and management of data from one/ many database to one/many database.

WisdomForce's customers include Wal-Mart, Coca Cola, Verizon, and Motorola, US Department of Labor, Thomson Financial, Verisign and Ross Stores among others. WisdomForce's leadership in the market is based on customer adoption, innovation, vision and product superiority in real-world customer situations. WisdomForce is based in Seattle, Washington.
